FLOOD THE
christian
science ZONES
WITH IDEAS

Here is a weakness of the Christian Scientists: they believe that thoughts, ideas, and concepts alone can be harmful to their health. Literally.

So, maybe it's time for us to take advantage of that, and flood their zones with thoughts, concepts, and ideas that they fear most?!

Maybe we can flood them full of facts?! Fresh framings?! Feels?! and our FURY at THEM for HARMING US and COUNTLESS OTHERS THROUGH the YEARS & taking LITTLE to NO AUTHENTIC RESPONSIBILITY?!

Maybe we can flood them full of reminders of all the horrific cases of abuse, neglect, harm, devastation, death, and destruction that they try to erase from the records?!

Maybe, just maybe, we can flood them full of all the shame, fear, and guilt that they try to bury in the noisy background of their daily cultic grind?!

And lastly, maybe we can become like little grains of sand in their cultic gears?!
